CBRNE

Innovation Fair **2016**

11—12 October 2016

SQUARE Brussels Meeting Centre
BELGIUM

www.cbrne-fair2016.eu

The **CBRNE INNOVATION FAIR 2016** will take place **11-12 October 2016** in the capital of the European Union in Brussels, Belgium and will bring together decision-makers, from government, operational units, industry, science and research in CBRNE and crisis management.

The industry's top performing companies and end-user organisations, SMEs, suppliers and research institutes will present their products and innovations. Among the products presented a special focus will be on EDEN Store and all tools developed by the EDEN project, a European Community FP7 project. The event will be a perfect place to build a constructive dialogue and collaboration on topics relevant to disaster risk management and crisis management.

6 GREAT REASONS TO JOIN THE EVENT:

- Meet official delegations
- Opportunity to see and discuss the latest innovations in the CBRNE market
- Take part in a market-leading event on a global scale
- Discover and discuss market trends
- Develop your business
- Share experiences and points of view

Activities / products:

- Crisis management – major risks
- Information technology
- Measurement and analysis equipment
- Personal protective equipment
- Drones and robotics

Market themes:

- Information and communication systems
- Systems integration
- CBRNE
- Threat analysis and management
- Fight against organised crime
- Protection of industrial and sensitive sites
- Urban security
- Civil defence

CONFERENCE

EDEN project FINAL CONFERENCE

The **EDEN Consortium** invites decision makers, operators, supplier and manufacturers of CBRNE technologies to join its **Final Conference** on **11 October 2016** organised jointly with the CBRNE INNOVATION FAIR 2016 in Brussels.

During the event, EDEN partners will present their results and achievements obtained in the last years of work in terms of technology, procedures and methods for the management of CBRN accidents. The **EDEN Store** and CBRNE equipment will be presented and the film footage from the validation exercises displayed.
